

2019 5th International Conference on Chemical Materials and Process (ICMP 2019)
Chulalongkorn University, Thailand
May 1-3, 2019

Conference Introduction

2019 5th International Conference on Chemical Materials and Process (ICMP 2019: <http://www.iccmp.org/>) will be held in Chulalongkorn University, Bangkok, Thailand during May 1-3, 2019. It provides an opportunity for the delegates to meet, interact and exchange new ideas in the various areas of Chemical Materials and Process. ICMP 2019 aims to proclaim knowledge and share new ideas amongst the professionals, industrialists and students from research areas of Chemical Materials and Process to share their research experiences and indulge in interactive discussions and special sessions at the event.

Good News

1. Publication

Option One: conference proceeding, which is indexed by **Ei Compendex and Scopus**.

Option Two: **International Journal of Materials, Mechanics and Manufacturing** (IJMMM, ISSN: 1793-8198), which can be indexed by EI (INSPEC, IET), Chemical Abstracts Services (CAS), ProQuest, Crossref and so on.

2. Famous professors as Speakers

Prof. Jian Chen, Tsinghua University, China;

Assoc. Prof. Zhigang Tang, Tsinghua University, China;

Prof. Paisan Kittisupakorn, Chulalongkorn University, Thailand.

3. Academic Visit

There will be a one-day visit in Bangkok on May 3, 2019.

Important Dates

Paper Submission	before December 15, 2018
Notification of Acceptance	on January 5, 2019
Registration	before January 25, 2019
Conference Dates	May 1-2, 2019
Academic Visit	May 3, 2019

Call for Papers

Topics of interest for submission include, but are not limited to: Multi-scale and/or Multi-disciplinary Approaches, Nanomanufacturing, Controlled release of the active ingredient, Macromolecular Science and Engineering, Advanced materials processing, Energy & nuclear sciences, Energy and environment, CFD & chemical engineering, Process system, instrumentation and control, Product engineering and product development, Product design & innovation, Food engineering, Nanomaterials, Particle technology, Mathematical modeling in chemical engineering, Chemical, Environmental, and Process Engineering, New materials & structured products, Intelligent polymers, Environmental engineering and sustainable development, Process design and optimization, Environmental engineering & management, Sustainable & clean technologies, Product innovation, development and economics, Process intensification, Nanotechnology, Green organic synthesis routes, Process integration, SCF as solvent substitutes, Chemistry and Chemical Engineering Fundamentals, Chemical engineering fundamentals, Chemical reaction engineering, Interfacial & colloidal phenomena, Chemical engineering equipment design and process design, Crystallization, Distillation, absorption and extraction, Ionic liquids/electrolyte solutions, Thermodynamics, Physical, Theoretical and Computational Chemistry, Chemical engineering educational challenges and development, Catalysis & reaction engineering, Particulate systems, Rheology, Multifase flows, Transport phenomena in porous/granular media, Membranes and membrane science and Other related fields. (For more information, please visit <http://www.iccmp.org/cfp.html>)

Submission Methods

1. Submission System:

<http://confsys.iconf.org/submission/iccmp2019>

2. Conference Email Address: iccmp@cbees.net

Contact us

Conference Specialist: Ms. Xue Gong

E-mail: iccmp@cbees.net
